disease-free survival and the quality of survival. In addition, one long-term trial has shown an overall survival benefit for NOLVADEX patients.

Today the management of breast cancer requires interdisciplinary teamwork, and women are looking to their surgeons for support and counseling following surgery.

ICI Pharma, maker of NOLVADEX, is providing you with the educational reference Surgical Management of Breast Cancer, a contemporary review of current practices and treatment options. We hope you find this material useful in your practice.

Sincerely,

*Nancy E. Meyer*
